

ESD & Conductive Products

Range of ESD pallets and Hybox

Static electricity cannot be avoided. Hundreds of times each day, Electrostatic Discharge (ESD) events occur without notice. Unfortunately, an increasing number of electronic components are susceptible to damage from very low voltage levels. ESD events affect the electronics packaging industry

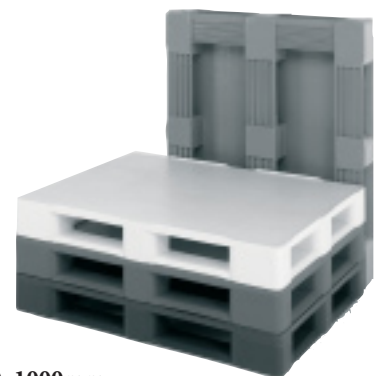

at all levels of production. The further development in miniaturization and complexity of electronic circuitry are setting the trend towards packaging of approved conductive material. The Arcawa ESD- pallets and ESD-Hybox provide effective protection for handling electronic components in assembly, storage and processing areas.

1200x800mm
Hygienic Plastic Pallet
version 1

1200x800mm
Plastic Pool Pallet

1200x1000mm
Hygienic Plastic Pallet

1200x800mm
Hygienic Plastic Pallet
version 2

1200x800mm
1200x1000mm
Hybox

1200x1000mm
Plastic Pool Pallet

Our range of ESD & conductive, as well as flame retardant products, are just examples of Arcawa's commitment to continuously innovate products that consistently meet or exceed customer expectations.

Availability

product colour Surface resistance ohm	anti-static any colour $\leq 10^{11}$ - $<10^{14}$	ESD only black or grey $> 10^4 < 10^{11}$	conductive only black $\leq 10^4$
Pallets	Avoids accumulation of electrical charges	Dissipative properties, controlled discharge	Fully conductive, immediate discharge
1200x800mm Hygienic Plastic Pallet version 1	available	available	available
1200x800mm Hygienic Plastic Pallet version 2	available	available	available
1200x1000mm Hygienic Plastic Pallet	available	available	available
1200x800mm Plastic Pool Pallet	available	available	available
1200x1000mm Plastic Pool Pallet	available	available	available
HyBox 1200/800 & 1200/1000			
palletbase	available	On special request	available
sleeve	available	On special request	available
deck	available	On special request	available
